Heidi Anne Heiner

Bluebeard Tales From Around the World (Surlalune Fairy Tale Series) Heidi Anne Heiner

The tale of Bluebeard with its many variants has a rich folkloric and literary history. It has often been retold and reinterpreted in modern times in novels, poetry, plays, movies and more. Once upon a time the character was better known and offered a larger cultural touchstone for the general population. Today he is best known only in literary circles. Consequently, the history of the tale as seen through its tales and other interpretations is fascinating. Offering over ninety tales and ballads, this collection compiles several variants of Bluebeard tales from around the world. Many of the tales are new translations, some appearing for the first time in English. Usually the stories are obviously related to each other and at other times the relationship is more tenuous. While tales from Europe dominate the collection, other parts of the world--including Africa, India, and North America--are well represented. Additionally, several plays and operas, as well as short fictions and poetry, all primarily from the nineteenth century, are offered here. The commercial value and diverse interpretations of this complex tale provide insight into our cultural past, present, and perhaps our future. Whether you are a student of folklore or an armchair enthusiast, this anthology offers a diverse array of tales with a unifying theme that both entertains and educates, all gathered for the first time in one helpful collection.
