**Manual of Graphic Techniques Volume 4 (Vol 4)** Sue Goodman, Tom Porter

Manual of Graphic Techniques 4 is an innovative, thorough introduction to the rendering of plans: from interiors to elevations, and site sections to sectional perspectives. The same easy-to-follow format familiar from the earlier volumes is used once again to show each step of how to develop and present plans of every sort. The artistic techniques exhibited here reach a level of sophistication and polish unseen in even the highly professional standards of the first three works in this series.

The last volume uses detailed step-by-step drawings and photographs to show every aspect of development and presentation of plans, from interiors to elevations, site sections to sectional perspectives.

- \* Comprehensive reference covering every aspect of plans
- \* Sophisticated techniques facilitate best practice in the drawing office
- \* Clear, easy-to-use format
