A Literature of Their Own

Elaine Showalter

A Literature of Their Own Elaine Showalter

When first published in 1977, *A Literature of Their Own* quickly set the stage for the creative explosion of feminist literary studies that transformed the field in the 1980s. Launching a major new area for literary investigation, the book uncovered the long but neglected tradition of women writers in England. A classic of feminist criticism, its impact continues to be felt today.

This revised and expanded edition contains a new introductory chapter surveying the book's reception and a new postscript chapter celebrating the legacy of feminism and feminist criticism in the efflorescence of contemporary British fiction by women.
