Organic Coatings, 2 Volume Set (v. 1 & 2) Zeno W. Wicks, Frank N. Jones, S. Peter Pappas

Combines a presentation of contemporary scientific knowledge in the field of organic coatings with a summary of its applied technology. The first volume covers film formation, components and some aspects of appearance of coatings. Volume two contains information on application, properties and performance of coatings. Although written specifically for the coatings field, many of the principles discussed are applicable to related areas of printing inks, adhesives and parts of the plastic industry so that people who specialize in one area of the field can relate their work to other arenas.
