The Vibrational Universe (Spiritual Dimensions)

Kenneth James Michael MacLean

The Vibrational Universe (Spiritual Dimensions) Kenneth James Michael MacLean

What if the fundamental nature of human beings is spiritual in nature? What if each one of us is eternal, and not just a collection of blood and bones? And most important, what if the universe is designed to support your decisions? What if it were possible to understand how to take conscious control of your life? In a wide-ranging metaphysical discussion from consciousness, incarnation and death to politics, economics and science, the author describes a cooperative universe which responds to your thoughts; and, like any well designed machine, provides a user-friendly interface. Learning to use this interface is simple, and inevitably leads to a feeling of self confidence and personal power. This is a book for those who want simple, practical, yet powerful answers in a world that often seems to be spinning out of control.
