## Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing)

Land use and land cover (LULC) as well as its changes (LUCC) are an interplay between bio-geophysical characteristics of the landscape and climate as well as the complex human interaction including its different patterns of utilization superimposed on the natural vegetation. LULC is a core information layer for a variety of scientific and administrative tasks (e.g. hydrological modelling, climate models, land use planning). In particular in the context of climate change with its impacts on socio-economic, socio-ecologic systems as well as ecosystem services precise information on LULC and LUCC are mandatory baseline datasets required over large areas. Remote sensing can provide such information on different levels of detail and in a homogeneous and reliable way. Hence, LULC mapping can be regarded as a prototype for integrated approaches based on spaceborne and airborne remote sensing techniques combined with field observations. The book provides for the first time a comprehensive view of various LULC activities focusing on European initiatives, such as the LUCAS surveys, the CORINE land covers, the ESA/EU GMES program and its resulting Fast-Track- and Downstream Services, the EU JRC Global Land Cover, the ESA GlobCover project as well as the ESA initiative on Essential Climate Variables. All have and are producing highly appreciated land cover products. The book will cover the operational approaches, but also review current state-of-the-art scientific methodologies and recommendations for this field. It opens the view with best-practice examples that lead to a view that exceeds pure mapping, but to investigate into drivers and causes as well as future projections.

### **From reader reviews:**

#### **Jacqueline McArdle:**

This Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing) tend to be reliable for you who want to become a successful person, why. The explanation of this Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing) can be among the great books you must have is actually giving you more than just simple looking at food but feed a person with information that perhaps will shock your before knowledge. This book is handy, you can bring it just about everywhere and whenever your conditions both in e-book and printed people. Beside that this Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing) forcing you to have an enormous of experience including rich vocabulary, giving you trial run of critical thinking that could it useful in your day pastime. So , let's have it and revel in reading.

#### **Leigh Grayer:**

The actual book Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing) will bring you to the new experience of reading some sort of book. The author style to describe the idea is very unique. In the event you try to find new book you just read, this book very ideal to you. The book Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing) is much recommended to you to study. You can also get the e-book in the official web site, so you can more readily to read the book.

#### **Anita Winn:**

Reading a e-book tends to be new life style in this particular era globalization. With looking at you can get a lot of information that will give you benefit in your life. Using book everyone in this world may share their idea. Textbooks can also inspire a lot of people. Many author can inspire their reader with their story or their experience. Not only the storyplot that share in the ebooks. But also they write about the data about something that you need illustration. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors in this world always try to improve their expertise in writing, they also doing some investigation before they write to the book. One of them is this Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing).

#### **Richard Horgan:**

In this period of time globalization it is important to someone to receive information. The information will make anyone to understand the condition of the world. The fitness of the world makes the information easier to share. You can find a lot of personal references to get information example: internet, magazine, book, and soon. You can see that now, a lot of publisher this print many kinds of book. Typically the book that recommended to you personally is Land Use and Land Cover Mapping in Europe: Practices & Trends

(Remote Sensing and Digital Image Processing) this e-book consist a lot of the information with the condition of this world now. This book was represented just how can the world has grown up. The dialect styles that writer value to explain it is easy to understand. Typically the writer made some study when he makes this book. Here is why this book ideal all of you.
