## The Oxford Guide to United States Supreme Court Decisions

The Supreme Court has been the site of some of the great debates of American history, from child labor and prayer in the schools, to busing and abortion. *The Oxford Guide to United States Supreme Court Decisions* offers lively and insightful accounts of the most important cases ever argued before the Court, from *Marbury v. Madison* and *Scott v. Sandford* (the Dred Scott decision) to *Brown v. Board of Education* and *Roe v. Wade*.

This new edition of the Guide contains more than 450 entries on major Supreme Court cases, including 53 new entries on the latest landmark rulings. Among the new entries are *Bush v. Gore*, *Nixon v. United States*, *Gonzales v. Planned Parenthood Federation of America*, and *Rumsfeld v. Forum for Academic and Institutional Rights*. Four decisions (*Hamdi v. Bush*, *Hamdan v. Rumsfeld*, *Rasu v. Bush*, and *Rumsfeld v. Padilla*) are considered in a single essay entitled "Enemy Combatant Cases." Arranged alphabetically and written by eminent legal scholars, each entry provides the *United States Reports* citation, the date the case was argued and decided, the vote of the Justices, who wrote the opinion for the Court, who concurred, and who dissented. More important, the entries feature an informative account of the particulars of the case, the legal and social background, the reasoning behind the Courts decision, and the cases impact on American society. For this edition, Ely has added an extensive Further Reading section and revised the Case Index and Topical Index.

For anyone interested in the great controversies of our time, this invaluable book is a must read primer on the epic constitutional battles that have informed American life.
