Manual of Navy Enlisted Manpower & Personnel Classifications & Occupational Standards: Volume Ii - Navy Enlisted Classifications (Necs) - Navpers 18068F - April 2013 (Volume 2) Department Of The Purpose 1. The Navy Enlisted Classification (Nec) system, of which the Nec coding system is a part, supplements the enlisted rating structure in identifying personnel on active or inactive duty and billets in manpower authorizations. Nec codes identify a non-rating wide skill, knowledge, aptitude, or qualification that must be documented to identify both people and billets for management purposes. Additionally, an Nec can be used to identify special circumstances or situations with approval via the Neocs process. 2. The Nec coding system facilitates management control over enlisted skills by identifying billets and personnel and enhancing efficient use of personnel in distribution and detailing. In cases where Necs reflect special training, inventories of coded billets and coded personnel are also the basis for planning and controlling input of personnel into formal courses that earn Necs. . .
