Regional Economic Integration and the Global Financial System (Advances in Finance, Accounting, and Economics) Engin Sorhun

In theory, regionalism and globalization are intended to be viewed as two separate concepts. However, as long as the approaches complement each other, considering these paradigms in tandem can have significantly positive effects on the overall status of the world economy.

Regional Economy Integration and the Global Financial System addresses recent trends in regional integration projects and the strides that such projects are making on the road toward globalization. Focusing on a range of economic projects, emerging supranational units, and possible implications for future trends, this book is an essential reference source for professionals, scholars, and institutions interested in the dynamic effects of regionalism and globalization.
