Michael Meyer

The Compact Bedford Introduction to Literature: Reading, Thinking, Writing Michael Meyer

The Compact Bedford Introduction to Literature is a best-seller for a reason: it brings literature to life for students — helping to make them lifelong readers and better writers. Classic works from many periods and cultures exist alongside a diverse representation of today's authors. Support for students includes a dozen chapters of critical reading and writing, with plenty of sample close readings, writing assignments, and student papers. And, because everyone teaches a little differently, there are lots of options for working with the literature, including in-depth chapters on major authors and case studies on individual works and themes that everyone can relate to. New to this edition are casebooks on short fiction and the natural world and a chapter created with Billy Collins.
